Subject Index—Volume 58

Assessment
technology, 1, 5, 23, 35, 47, 53, 125

Bimodal system dynamic
technology assessment, 47
Biofuels
sustainable technologies, 83
Business abuses
privacy, 167
Business reengineering
critical success factors, 297

Competitiveness
knowledge constraints in small and medium-sized enterprises (SMEs), 277
Corporate abuses
privacy, 167
Corporate performance
critical success factors, 297

Delphi
forecasting and assessment of Research & Development (R&D) activities, 125
forecasting with modified, 155
Developing countries
industrial development technology divergence policies, 271
technology assessment, 35
Development
sustainable, 1
Divergence policies
technology effects on industrial development in India, 271

East Asian firms
organizational learning in successful, 285
Electronic zooming
Zero Emissions Research Initiative, 53
Electronics industry
organizational learning in successful east Asian firms, 285
Electronics technology
Delphi for forecasting and assessment of Research & Development (R&D) activities, 125
forecasting with modified Delphi, 155
Environmental performance
chemical production, 105

Food provision
Zero Emissions Research Initiative, 53
Forecasting
technology, 1, 47, 53, 125, 155

Governments
technology assessment, 35
Green revolution
Zero Emissions Research Initiative, 53

Industrial development
technology divergence policies, 271
Information technology
business privacy issues, 167
Delphi for forecasting and assessment of Research & Development (R&D) activities, 125
forecasting with modified Delphi, 155
innovation in service sector, 251
Innovation
importance of knowledge, 181
service sector, 251
Integrated technology assessment
Research & Development (R&D) management practices, 23
Investment strategies
regional Research & Development (R&D) productivity and multinational enterprise, 241

Knowledge-based economy
effects on technology policy and innovation, 181
expectations for university, 203
Knowledge constraints
diagnosis in small and medium-sized enterprises (SMEs), 277
Korean corporations
success factors for business reengineering and corporate performance, 297
Korean Delphi
forecasting and assessment of

Research & Development (R&D) activities, 125

Learning
organizational principles, practices, and prospects in successful East Asian firms, 285
Liquid fuels
sustainable technologies, 83

Multinational enterprise
investment strategies and regional Research & Development (R&D) productivity, 241

Organizational learning
principles, practices, and prospects in successful East Asian firms, 285

Plastics
sustainable consumption and production, 105
Privacy concerns
business in early 21st century, 167
Public policy
expectations for university in knowledge-based economy, 203

Qualitative growth
sustainability concept development, 63

Research & Development (R&D) activities
Delphi use for forecasting and assessment, 125
university-enterprise partnerships, 215
Research & Development (R&D) management
technology assessment integration, 23
Research & Development (R&D) productivity
effects of investment strategies of multinational enterprises, 241

Service sector
innovation, 251
Small and medium-sized enterprises (SMEs)
diagnosing knowledge constraints, 277
Sustainability
biofuels, 83
concept development, 63
consumption and production of plastics, 105

Technology
assessment, 1, 5, 23, 35, 47, 53, 125
forecasting, 1, 47, 53, 125, 155
Technology policy
importance of knowledge, 181
Toolkit
technology assessment, 5

Universities
expectations in knowledge-based economy, 203
university-enterprise partnerships and Research & Development (R&D) activity and intensity, 215

Water provision
Zero Emissions Research Initiative, 53

Zero emissions
technology forecasting and assessment, 53
